## ABOUT ME

A smart, quick learner who thrives on new challenges. With strong time management and adaptability, I excel at grasping complex ideas and mastering new skills efficiently. My eagerness to grow makes me an ideal fit for dynamic, learning-oriented environments.

## PROJECTS

Jclick Solutions Course Projects

### JavaScript Projects:

- Currently working on creating a calculator, weather app, form validation, and to-do list application.
- Utilizing JavaScript for dynamic functionality, data manipulation, and local storage integration.
- Demonstrating proficiency in JavaScript fundamentals and problem-solving skills.

### My Portfolio Website

- Designed and built a personal portfolio website using HTML, CSS, and Tailwind CSS
- Showcased my work, skills, and background in an engaging and visually appealing manner
- Leveraged responsive design techniques to ensure optimal viewing on various devices

### Custom Portfolio Website

- Developed a portfolio website from a random design template found online.
- Utilized HTML, CSS, and Bootstrap to create a visually appealing and responsive layout.
- Demonstrated my ability to work with pre-existing design concepts and implement them effectively.

### Start Bootstrap Website

- Designed a website from the ground up using the Bootstrap framework.
- Customized the design, layout, and functionality to meet specific requirements.
